Clinicals: August 17 – September 13, 2024 (*Dates are tentative, may be extended, and scheduled by MACC staff; either in Mexico, MO or scheduled closer to agency location)

I understand the Law Enforcement Phlebotomy Program (LEPP) Training has an academic dress code and attendance is required for all hours, including Clinical Practicals, which will be scheduled by the Moberly Area Community College (MACC) Law Enforcement Phlebotomy Program. I will follow the rules and policies of the MACC program while there and will adhere to the guidelines of the school set forth by the Course Manager. I understand if I fail to comply with these rules, I may be dismissed from the school. I understand enrollment in this course is strictly determined by the Missouri Law Enforcement Phlebotomy Task Force.

It is my understanding as an LEP in Missouri, I may be called upon to assist another agency, outside of my current jurisdictional boundaries, due to the additional knowledge and training I've received as a law enforcement phlebotomist for my agency.
